SUMMARY OF THE REASONS FOR DECISION:

The computer image file entitled *Muvf30cl.jpg* has been classified as;
Objectionable.

The computer image file promotes and supports bestiality. The image depicts the face and upper body of a woman. She is positioned beneath a large animal with her cheek and forehead against the belly of the animal. The woman has the animal's penis in her mouth and is fellating it. There is a very large opaque glob of seminal fluid falling from the woman's mouth. The explicit nature of the sexual act between the woman and the animal is intended to be sexually arousing to the viewer and in this way the publication promotes and supports bestiality.

Section 14 of the New Zealand Bill of Rights Act 1990 (NZBR Act) does not apply to this publication because it has been determined that s3(2) of the Films, Videos, and Publications Classification Act 1993 applies. This provision overrides the NZBR Act because it is a deeming provision which cannot be given a meaning that is consistent with the rights and freedoms of the NZBR Act.
